

**Are you making the  
most of the Internet?**

## Breeze - a unique concept

Everything is heading towards the Internet. Breeze is an entrepreneurial community and training academy which shows **anyone** how to make money on the Net and provides all of the tools needed for success.

Breeze has eliminated:

- The myths
- The mysteries
- The 'I can't do it'... the fear factor
- The 'I don't know how'
- The huge cost usually associated with successful Internet marketing

With Breeze you will also be joining an entrepreneurial community so you not only get the education and tools you need but also the opportunity to network and receive support from other subscribers.

## Already have a business?

Breeze will show you a way to:

- Increase profits
- Stay ahead of competitors
- Increase customers
- Reduce advertising costs

With no ongoing costs.

## Starting a new business?

If you are looking for another income stream, Breeze is the perfect package for you to learn how to set up a brand new business from scratch and start seeing results **within hours**.

"I'm a manufacturing industry professional, amateur photographer and musician. I had next to zero knowledge about how the Internet actually worked, especially search engines and the numerous ways of generating traffic. I've managed to launch two sites of my own, both of which were indexed and ranked on PAGE ONE of Google within a few hours of publishing. I'm now generating more and more traffic to these sites by following the simple and concise instructions outlined in the training and will soon start to advertise my own products and services. I'd strongly recommend Breeze to anyone who wants to hit the ground running when it comes to developing an online business and who doesn't have time or money to waste. The training is first class and the value for money is exceptional."

Simon Brice. Manufacturing Consultant. Hertfordshire.

## Core product - Breeze Academy

This is a complete 'beginners to advanced' system for you to learn how to market any business or product on the Internet.

Breeze makes it easy for anyone to understand. The education is via online audio and video lessons, in every day language, and shows step by step how to get from A to Z and run a truly remarkable Internet business. The training is an enjoyable experience and you will be awarded a Certificate of Achievement on successful completion.

## Not just education

In addition to the Academy training package you also have:

- Everything you need to create and run a successful online business: web hosting, autoresponder, web builder etc.
- Access to additional video lessons taking you to a level of marketing knowledge most people would not dream of achieving
- On demand resource library - 100's of videos, eBooks and software, many of them with resale rights
- Ongoing support and training

All this is available for 3 years 24/7. Yes, that's **three years** and there are no monthly fees.

"Breeze has enabled me to make maximum use of the Internet by giving me the tools to learn Internet marketing. As someone in business who is 'old school' this has opened my eyes to what is achievable and I am recommending that all my clients look into the Breeze Academy immediately. If you value your business this is a must."

Allan Smith. Federation of Small Businesses, Pontypridd.

## This works

Breeze is now well established and has invested heavily in the technology and infrastructure. The two Breeze founders are multi-millionaire entrepreneurs and have not only invested financially but have also surrounded themselves with genuine Internet talent... not just technical talent but people who know how to make the Internet work commercially.

The Breeze training in itself is the best available, it is very affordable and is results driven.

## Worried about technology?

Even if you are not technical, if you can use a keyboard, a mouse and an Internet browser you are in business with Breeze.

If you already have a business and don't have the time to get 'hands-on' with the technology, the Breeze training can be delegated to a member of your staff. They'll love it and you will love the results. As an added service Breeze can also provide you with a virtual assistant who can do everything for you if you prefer to outsource.

Take control of your own website - Breeze can help you produce a professional looking website in hours. Even better... ask us for a demonstration of how you can produce a good looking website, live and ready to view on the Internet, in just a couple of minutes.

"I needed to learn how to promote my health and beauty business on the Internet. Five days ago I started the Breeze Academy training programme and it's opened up the world for me. I hadn't a clue what I was doing - they said not to worry as things would become clear as I moved on. By the fifth day I was really in the flow and actually seeing some results. Now you can't get me off my laptop. It's so easy and I'm having great fun."

Isabel Dennis, Lincolnshire.

## No idea?

One of the big problems with starting an Internet business is... just that... starting.

Most people are thinking 'I'd love to have a business on the Internet, but where do I start?'

One of the first things you will learn with the Breeze Academy is **where to begin**. It's easy if you have an existing business or a hobby you would like to turn into an income stream; however even if nothing immediately springs to mind Breeze will not only help you choose a 'niche' and a domain name but will also show you how to find products to sell.

The Internet is now a much richer hunting ground than the average high street and Breeze will show you step by step how to set up shop and how to make a serious income.

## How much?

The Academy Business Center package is just \$997 (approx. £600 in the UK)... for a full 3 years. That's less than \$1 per day (less than 60p).

## No risk

Breeze has a no questions asked 7 day money back guarantee - you have absolutely nothing to lose by evaluating the ABC subscription.

## Affiliate commissions

Breeze has found that subscribers are very happy to refer Breeze to others and has introduced a very simple affiliate program whereby subscribers can, if they wish, refer the Breeze ABC package and receive a direct commission of \$300 (approx. £200) for each referral.

"I've been Internet marketing for 8 years and I've had success, however I never really cracked how to get free website traffic. I have spent a lot of money with the 'gurus' and am so pleased I have finally found Breeze, it's very refreshing. In the past 2 months since I started the Breeze Academy I have learned so much. It's already working and that's just after completing the first module."

Richard Wall, Finance Director, North Yorkshire.

## A career with Breeze

Breeze is uniquely positioned to help tens of thousands of people around the world embrace the Internet and thrive in these new economic times. The company is looking for entrepreneurial people who are looking for an outstanding opportunity. If you are looking for an exciting new career on the Internet and you like the idea of working with our team to help Breeze expand in your local area, nationally and globally please see a member of the business development team for more details.

"As far as Internet marketing goes, I was a complete novice. However I realised that in these difficult times the Internet has massive income potential, 24/7, it's one of the only growing trends, it's global and it's huge. I needed to learn at my own pace, I needed comprehensive, up to date knowledge. The Academy package has it all and so much more than I imagined. Thank you so much for making this available. Amazing value for an ongoing 3 year course."

Paul Bradbury, Diving Instructor Trainer, Caerffili.
